Subject: READING FILE - Week 2 Data - Dimock

Hi, Eric. On 3/26, I sent Kelley Chase 17 draft memos for Week 2 homewell data; on 3/26, I sent four more draft memos to complete the Tox Evaluations for Week 2. Some of those memos have subsequently been revised (language added or subtracted), but I didn't want to flood your mailbox with all those e-mails and attachments. If you want copies, please let me know. This e-mail is just to document the draft memos in the Reading File. Thanks.

Dawn
